<sup>a</sup> Product has passed the [Interagency Grizzly Bear Committee Testing Program](#) (IGBTP) with captive bears at the Living with Wildlife Foundation.

<sup>b</sup> The “ Estimated Cost per Container” column is showing = amount for shipping divided by (÷) the minimum amount that has to be purchased plus (+) the price per container. Therefore, it is showing the cost of *one* can. Each company has their own minimum order of cans that has to be purchased. Hence, the price provided in the last column is NOT the total cost of the full order.

<sup>c</sup> Costs depend on the amount of cans being purchased (shipping costs decreases the more cans purchased)

NOTE: all final prices depend on the amount of cans bought, price of gas at the moment of shipping, and the area where it is being shipped.
